

Active Norfolk

 Strategic Partnership Organisation

 less than a mile away

About us...

We're a young, dynamic and innovative organisation who enjoy long walks on the beach, reducing inequalities and building partnerships to create a more active population in Norfolk. We're not all sporty, but we believe sincerely that physical activity should play a role in an integrated approach to creating a happy, healthy and productive society. We enjoy reading and have a real strength in the use of data and insight to help us understand communities.

We're really outgoing, having lots of friends from a diverse range of organisations across sectors. We're not really looking for something short-term/transactional, so if that's your thing then just swipe left. However, if you're in it for the long-haul and are open to making a positive change, then we could be the people for you.

Would love to find...

- An enthusiastic and creative partner we can work together with to engage inactive audiences
- Someone on our wavelength that we can align our resources with
- Someone to open up avenues to local communities to help us grow
- Someone who likes long walks on the beach and stargazing
